

March, 23rd 2020

Dear clients, suppliers and friends,

As the world deals with the Coronavirus (COVID-19), all of us here at Ronautica Marinas want to wish everyone around the globe our very best wishes and continued commitment to ending the pandemic. We salute and applaud all of the health and government workers on the front line of this disease who risk their own lives to save others.

We have made safety our main priority in our offices and production facilities around the world by implementing measures ensuring the health of every member of our team is safe. We have and will continue to comply to all regulations implemented to provide the safest working environment. Our team has been the cornerstone of our success for over 30 years. We are family.

All of our production facilities will continue to operate. Our management and engineering teams will also be continuing their operations, ensuring that our client's needs will continue to be met. It is important that we continue to support our cherished clients, suppliers and our own staff through this period. We are honored to be part of your lives and our commitment to all of you is our way of saying thank you. We are citizens of different nations but today we are all citizens of the world. We must stay united to one another and know that we will overcome this.

Our thoughts, our prayers, are for everyone and their loved ones. Please do what you can and must to help rid the world of this pandemic. Generations ahead will look at this moment in time and say the world and its citizens showed what humanity can achieve. We want to thank every member of our team and their families here in Spain, the United States, Canada, Ireland, Panamá and around the world for their commitment to Ronautica Marinas.
